Christian Yánez García

I currently master the Frontend and Backend stack for Javascript, which allows me to create Web Applications, I get along very well with Java/C++/Python for desktop and console applications. Currently learning Elixir, Go, Redis and Elasticsearch.

Education

- 2000-2005 High School (U.E. Santiago Mariño)
- 2010-2017 Bachelor of Science (BSc) Computer Engineering (Universidad de Oriente)

Work Experience

- 2006 - 2008 Network and support technician (SENIFA Central)
- 2008 - 2011 Valery Administrative Technical Support (San José Pharmacy C.A.)
- 2010 - 2010 Web Developer (Foundation Anzoátegui es Ciclismo)
- 2017 - 2017 POS Application Programmer (Novedades De Todo S.R.L)
- 2017 - 2018 Software Engineer - Programmer (Digitel Corporation C.A.)

Other experiences and certificates

- 2016 Advanced Linux: The Linux Kernel (Linkedin Learning)
- 2016 Data Visualization for Data Analysts (LinkedIn Learning)
- 2016 Mastering Express Web Application Development (LinkedIn Learning)
- 2016 Ethical Hacking: Denial of Service (LinkedIn Learning)

Skills

Communication Languages

- Spanish (Mother tongue)
- English (Intermediate Level - A2 - B1)

Programming Languages

- Javascript (Expert)
- Java (Expert)
- C/C++ (Expert)
- Assembly (Competent)
- C# (Competent)
- Python (Competent)
- Go (Apprentice)
- Elixir (Apprentice)
- Rust (Apprentice)

Frameworks

- Qt (Expert)

- Express.js (Competent)

- CSS Framework

    - Booststrap
    - Bulma

Libraries/APIs/Environment

- React (and ecosystem) (Expert)

    - Redux
    - Redux-Saga
    - React Router
    - and others

- Highcharts.js (Expert)

- Amcharts.js (Expert)

- Socket.io (Competent)

- Synaptic.js (Expert)

- Lodash.js (Competent)

- Sass (Competent)

- Stylus (Expert)

- Node.js (and ecosystem) (Competent)

    - Objection.js
    - Knex.js
    - Driver for DBs
    - Tasks managers
    - and others

- Nginx (Competent)

- Apache (Competent)

- HTTP/HTTPS and APIs

Platforms/Enviroment

- Linux (Expert)
- Windows (Expert)
- macOS (Expert)

Storage

- PostqreSQL (Expert)
- MySQL (Expert)
- Oracle DB (Expert)
- Microsoft SQL Server (Competent)
- SQLite (Expert)
- MongoDB (Competent)
- Rethinkdb (Competent)

Tools

- Git (Competent)
- Git Flow (Competent)
- Visual Studio Code (Expert)
- Qt Creator (Expert)
- Visual Studio IDE
- IntelliJ IDEA (Expert)
- PyCharm (Expert)
- Vim (Competent)
- Sublime Text (Expert)
- Gitkraken
- Terminal (Expert)
- Docker (Competent)
- Docker Compose (Competent)
- SSH (Competent)
- Flow.js (Competent)
- Webpack.js (Expert)
- NPM/Yarn (Expert)
- ESLint (Competent)
- AWS (Competent)
- DigitalOcean (Competent)

Paradigms

- Concurrent Programming
- Functional Programming
- Test-driven Development (TDD)
- Model View Controller (MVC)
- Model View Presenter (MVP)
- Domain-driven design (DDD)
- Onion Architecture
- BEM

Interests

- Machine Learning
- Web design
- Front-end development
- App development (Android)
- Personal projects
